MONEY 8 PER CENT., NEW YORK EXCHANGE 1-4 PREMIUM.

Cotton Steady - Middling, 9c-Sales Yesterday, 1400 Bales.

Money is easy at 8 per cent. Local securities steady. The cotton market yesterday was steady, middling, 9c; sales, 1400 bales. New York spots closed firm, middling, 9 5-16c. Greene & Co, thus report the course of the future market: "Liverpool reports were a trifle better than expected, and this gave old crops very good support with some covering especially for May and June. There was, however, an increased disposition to sell the new crop from now forward, owing to the narrow differences and generally favorable advices as to the planting and its condition. The late months closed about 3 points lower and barely tions were as follows: steady."

At New Orleans spots closed firm, middling 9c, futures steady and unchanged, June 901c. At Liverpool spots were firm and in fair demand, middling 5 3-16d, futures dull but 1-64d higher; May 5.08d. Receipts at this point yesterday, 311 bales; thus far this season, 530,219 bales, against 422,715 bales same time last year. Stock, 63,540 bales. In the general market sugar declined ic to 6jc for Louisiana white clarified sugar. Other articles unchanged. Eggs steady at 11@12c.

Bonds-Government bonds were dull and steady; State bonds were nominal; railread bonds were heavy to weak early in the forenoon, but be came strong in the afternoon, re-covering the losses. Northwestern sinking tund 5's are up 21 at 1084. Cincinnati, Washington and Baltimore 1sts are down 3 at 1031, and Indiana, Bloomington and Western 1sts 41 at Stocks-While labor news was of

great interest in stock dealings it can-not be said that it was a controlling interest because of the conflicting character of the information. Several stories were in circulation regarding the spreading of strikes in new fields, like the New York Central and the anthracite coal fields. Both stories lost their power, however, and then lost their power, however, and then denials were promptly issued by the officials of both interests. The market was irregular at the opening, though the majority of the active list showed advances of loll, the latter Lackawanna, New York Central and Delaware and Hudson, while several remained active in the early dealings, and although there were a few slight advances in the first few minutes, the market soon became weak and conmarket soon became weak and con-tinued so throughout the first hour, Lackawanna being conspicuous in the decline. This was followed by a quiet and rather firm market until decline. This was followed by a quiet and rather firm market until afternoon, when there was a repetition of the activity and weakness of the first hour. Chicago, ILL, May 6.—Interest turned to wheat again to day, and the market was quite active. The tone, however, was very weak, and the tenhowever, was very weak, and the ten-dency of values quite sharply down-ward, wheat declining lip. About the only period of comparative strength was soon after the opening, when June remained closely around 80c, but there was such a decided absence of buying orders that inside of fifteen minutes the market began its downward course, and kept it up, with little or no intermission, until the close of the morning session. The decline, all the way from 80c down to 78 tc, only seemed to bring out more wheat. The 1 o'clock close was weak, at only a fractional exception of the second of the se recovery from sottom prices. In the afternoon the market closed still easier. The increase shown in the amount of grain on passage was essing in its effects. Corn followed the general course of wheat and declined \$e, closing a little heavy. Flour dull and un-changed.
